OUR MISSION STATEMENT

1 OUR MISSION

“Creating and fostering higher knowledge and wisdom”

How can we, the human race, develop and grow in a steady and sustainable manner for the sake of future generations? At Okayama University, we have the answer. It is imperative that we build up our knowledge in order to advance education and research. As a public institution of higher learning, we are committed to contributing to this advancement by providing a positive environment for the creation of higher knowledge through research and the passing on of wisdom to younger generations through education and community service.

2 OUR PURPOSE

“Building up a new paradigm for a sustainable world”

As one of the leading universities in Japan, we aim to create and establish a new paradigm for the sustainable development of the world. We are being confronted with problems of global proportions in terms of the environment, energy issues, food supplies, economics, health, security and education. Thus, we are constantly seeking ways for humans to co-exist in harmony with nature. With this in mind, our university offers a wide range of academic fields, which are the basis of our integrated graduate schools. This not only allows us to conduct the most advanced and up-to-date research, but also provides an enriching educational experience.

3 OUR GOALS

(1) For education

Okayama University's most important mission is to provide an enriching educational environment for our students. Our commitment to each and every student is to offer them meaningful interaction with the university faculty and staff, whether it be in classroom settings or one-on-one tutorials. In this way, we hope to develop graduates who can think critically and logically and who can contribute to society.

(2) For research

We believe that the research we engage in is a fundamental basis for the innovation and creativity in this university. We are striving to become one of the leading research institutions of Japan and the world.

(3) For society

As an institution of higher learning, Okayama University creates a wide range of knowledge and technologies which can be used to help solve the problems of society and we interactive with the outside community.

(4) For administration

To achieve our goals in research and education by the highly efficient management system, we can make even better use of the resources from our own faculties, staff, and facilities.

(5) For self-evaluation

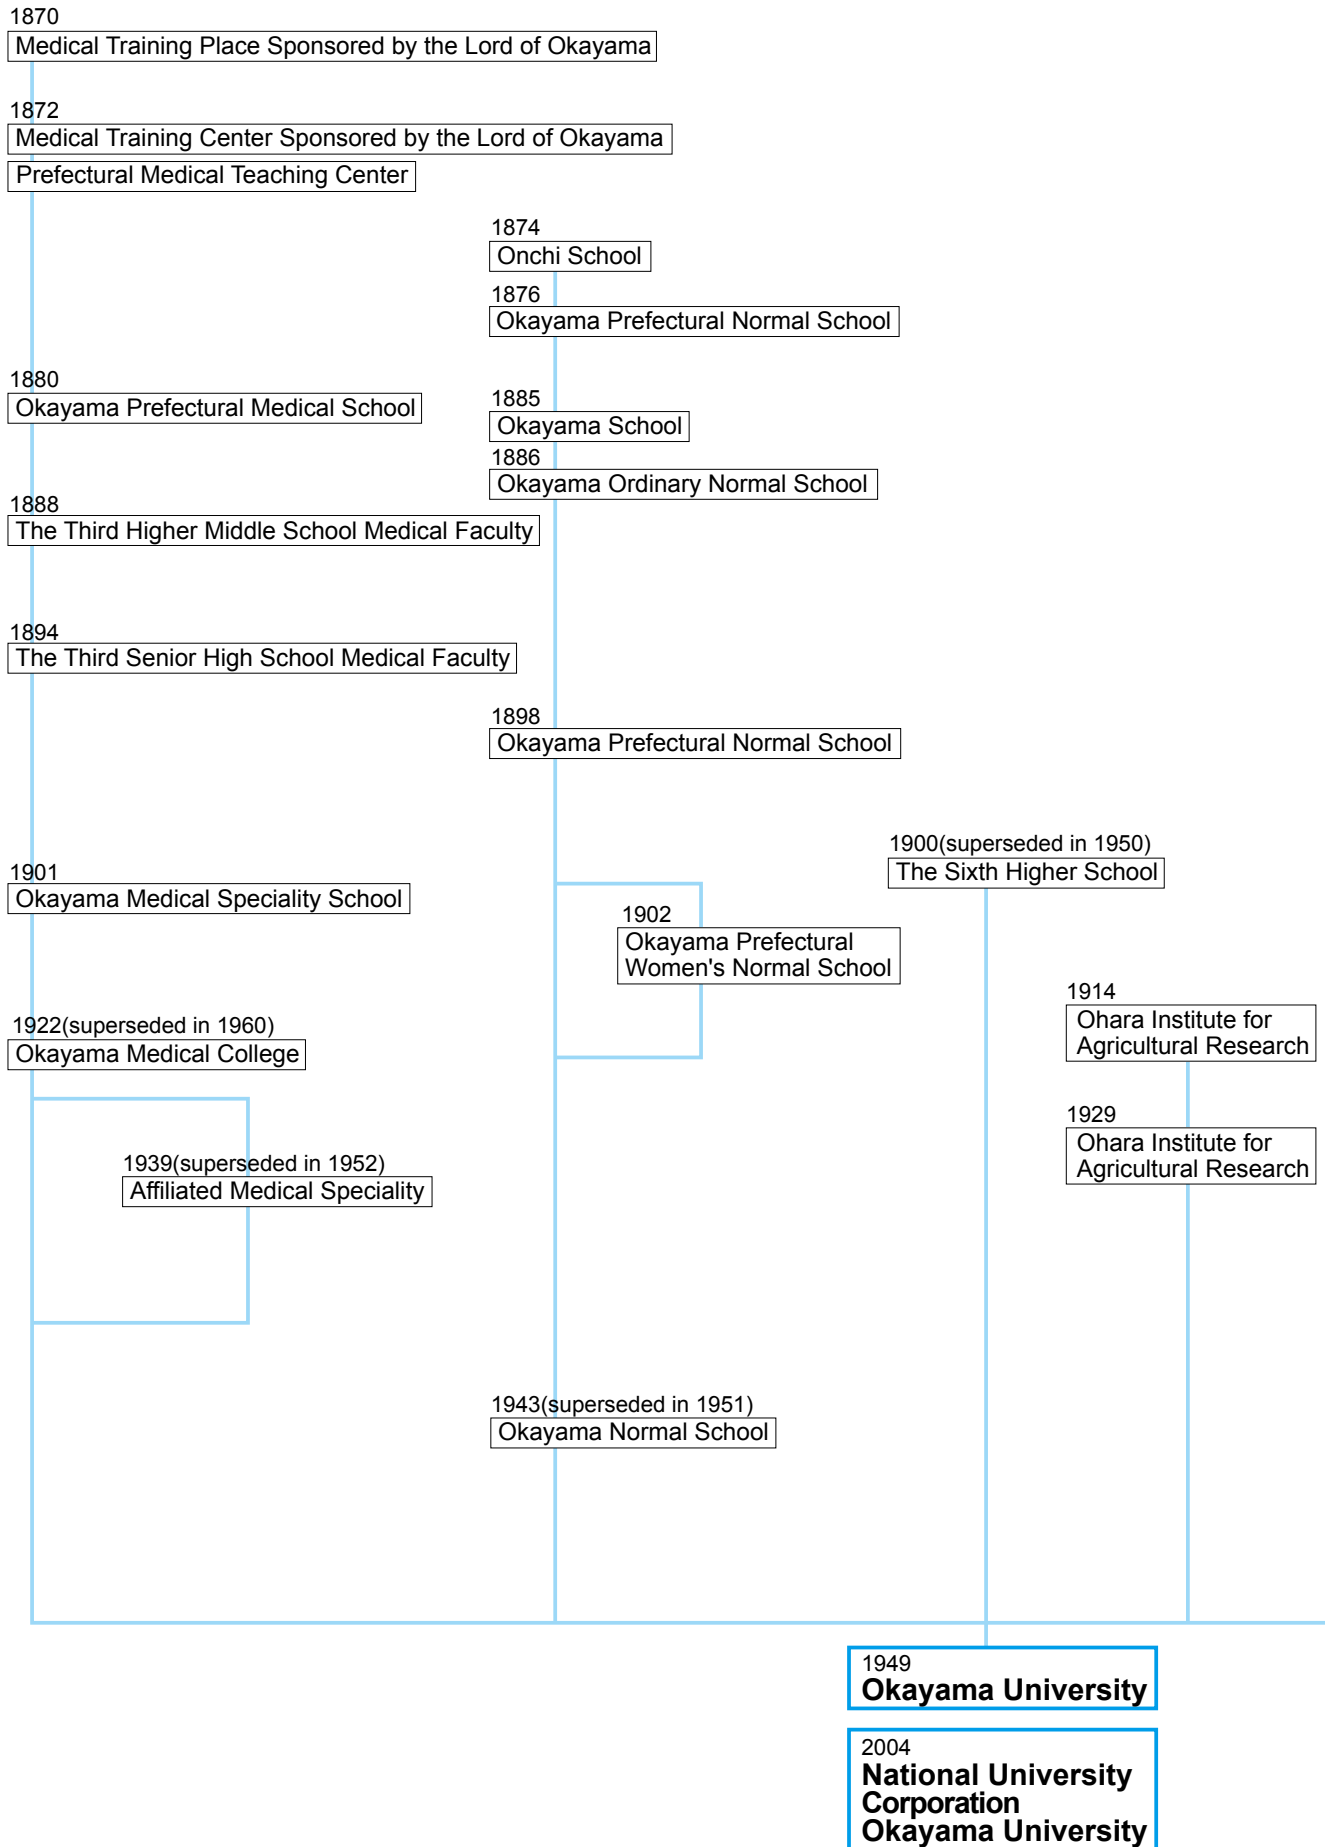

To provide accountability as a public institution, we constantly evaluate our work in research, education, our contribution to society, and university management. The results of these evaluations are taken into account for future university reform.

ACADEMIC CALENDAR

April 1	Academic Year begins. First Term begins. First Semester begins.
April 2	Entrance Ceremony
June 9	First Term ends.
June 10	Second Term begins.
August 10	Second Term ends.
August 11	Summer Vacation (until September 30)
September 22	Graduation Ceremony
September 30	First Semester ends.
October 1	Third Term begins. Second Semester begins.
October 3	Autumn Entrance Ceremony
October 22	University Anniversary
December 2	Third Term ends.
December 3	Fourth Term begins.
December 25	Winter Vacation (until January 4)
February 14	Fourth Term ends.
February 15	Spring Vacation (until March 31)
March 24	Graduation Ceremony
March 31	Second Semester ends. Academic Year ends.

UNDERGRADUATE SCHOOLS

As of May 1, 2022

School of Letters (1 Department 5 Subjects)

- Department of Humanities

School of Education (2 Courses 17 Subjects)

- Training Course for School Teachers
- Training Course for Yogo Teachers (Nursing Teachers)

Faculty of Law (1 Department 4 Subjects)

- Department of Law (including Evening Course)

School of Economics (1 Department 4 Subjects)

- Department of Economics (including Evening Course)

School of Science (5 Departments 5 Subjects)

- Department of Mathematics
- Department of Physics
- Department of Chemistry
- Department of Biology
- Department of Earth Sciences

Medical School (2 Faculties 20 Subjects)

- Faculty of Medicine
- Faculty of Health Sciences

Dental School (1 Faculty 5 Subjects)

- Faculty of Dentistry

School of Pharmaceutical Sciences (2 Departments 2 Subjects)

- Department of Pharmacy
- Department of Pharmaceutical Technology

School of Engineering (1 Department 10 Subjects)

- Department of Engineering for Sustainable Development

School of Agriculture (1 Department 4 Subjects)

- Department of Agricultural Sciences

Discovery Program for Global Learners

The Discovery Program for Global Learners offers an interdisciplinary education that crosses traditional departmental divisions. Students develop a personalized curriculum that matches their academic and career goals under the close guidance of an academic advisor. The Discovery Program aims to nurture inspiring young leaders who will take active roles on the global stage. Graduates of the Discovery Program earn a Bachelor of Arts and Sciences Degree.

Postgraduate Course, Vocational Course

- Postgraduate Special Education Credential Program
- Special Course for Yogo Teachers (School Nurse Teachers)

POSTGRADUATE COURSE, VOCATIONAL COURSE

Postgraduate Special Education Credential Program
Special Course for Yogo Teachers (School Nurse Teachers)

RESEARCH INSTITUTE

Institute of Plant Science and Resources (IPSR)

Institute of Plant Science and Resources was originally established in 1914 as the “Ohara Institute for Agricultural Research” with the aim of advancing the agricultural sciences. The founder was Magosaburo Ohara, a major figure in the modernization of Okayama. In 1952, the institute became affiliated with Okayama University and was renamed the “Institute for Agricultural Biology”. In 1988, the Institute was renamed the “Research Institute for Bioresources”. On April 1, 2010, the institute was renamed the “Institute of Plant Science and Resources” (IPSR) as a joint usage/research center for scientists in Japan. IPSR comprises Atmospheric Stress unit, Soil Stress unit, Biotic Stress unit, Genetic Resources unit, and Applied Genomics unit under two research areas (Research Core for Plant Stress Science and Research Core for Future Crops) and one research center (Barley and Wild Plant Resource Center). The institute's current scientific mission is to develop new crops that will be suited for multiple stress environments and to promote agricultural production in stress affected areas worldwide.

Institute for Planetary Materials (IPM)

Institute for Planetary Materials (IPM) was established in April 2016 through reorganization of the Institute for Study of Earth's Interior. IPM is located at Misasa, Tottori. IPM is a world-class research institution in the field of Earth and planetary materials science with a range of experimental facilities and analytical expertise. The institute has research divisions: “Basic Planetary Materials”; “Planetary Systems Science”; and, “Astrobiology”. The institute is promoting research programs in Earth and planetary materials science including those related to the origin of life, as well as interdisciplinary research and the development of new research fields. The institute has also been promoting education of next-generation researchers via a 5-year doctoral program within the Graduate School of Natural Science and Technology and an annual Misasa International Student Intern Program.

Research Institute for Interdisciplinary Science (RIIS)

Research Institute for Interdisciplinary Science (RIIS) was established in April 2016, to study physics and fundamental biological science with an extensively interdisciplinary approach. In particular, RIIS investigates neutrino physics using laser spectroscopy, the structure and mechanism of natural photosynthesis and the fabrication of artificial photosynthesis systems, new functional materials for future electronic devices, the design of superconducting materials with a high superconducting critical temperature, and the theoretical elucidation of the properties of energy storage materials. Furthermore, RIIS aims at producing new functional materials and devices through interdisciplinary collaboration by physicists, mathematicians, chemists, and biologists.

Research Institute for the Dynamics of Civilizations (RIDC)

The Research Institute for the Dynamics of Civilizations (RIDC) was established in April 2021 by reorganizing the Center for Research on the Dynamics of Civilizations, formerly attached to the Graduate School of Humanities and Social Sciences. RIDC is an interdisciplinary research hub centered primarily on the humanities and social sciences, including archaeology, history, anthropology, economics, sociology, and philosophy, that aims to facilitate close collaboration with researchers in various scientific fields at Okayama University and other institutions in Japan and abroad. Since 2022, the institute has been organized into the Research Division and the Cultural Heritage Management Division, and is also responsible for conducting excavation of and research on the archaeological sites on campus. The Research Division has three research cores: the Fundamental Science of Civilizations Research Core, the Social Dynamics Research Core, and the Regional Dynamics Research Core. RIDC aims to contribute to the construction of a sustainable society by clarifying the complex dynamics of how social organizations, technologies, beliefs, economics, and the arts are interrelated and how they change the way people live.

UNIVERSITY LIBRARIES

Books

As of May 1, 2022

Classification	Japanese and Chinese Books	Foreign Books	Total
Central Library	1,127,233	466,469	1,593,702
Shikata Branch Library	115,912	103,779	219,691
Institute of Plant Science and Resources Branch Library	77,496	91,669	169,165
The Institute for Planetary Materials Branch Library	584	4,556	5,140
Grand Total	1,321,225	666,473	1,987,698

The Ikeda Family Collection (Ikedake Bunko)

The Central Library houses the Ikeda Family Collection (Ikedake Bunko) which contains records and documents of the Ikeda clan, the feudal lords of Okayama from 1632 to 1871. The collection consists of an archive of about a hundred thousand legislative documents, Japanese classics, and Chinese classics. The collection is well known as a source of primary materials for research on the Shogunate government and clan governments during the Edo period.

Map of Bizen Province(1596-1615.
Okayama Castle can be seen in the lower left)

JOINT USAGE / RESEARCH CENTER

Institute of Plant Science and Resources (IPSR)

Institute of Plant Science and Resources (IPSR) is serving as a nationwide “Joint Usage/Research Center” for plant genetic resources and stress science. It is focused on research of plant responses and adaptation to variable stress conditions using plant genetic resources developed at the institute. IPSR annually manages research projects from outside the institute and makes its advanced research equipment and instruments available for such “Joint Usage/Research Center” projects. IPSR also has a new guesthouse as accommodation for visiting researchers.

Institute for Planetary Materials (IPM)

Institute for Planetary Materials (IPM) was designated as a Joint Usage/Research Center in Earth and planetary materials science by the Minister of Education, Culture, Sports, Science and Technology (MEXT) in 2010 based on its achievements as a “National Collaborative Research Facility”. The Institute provides opportunities to a large number of domestic and international researchers and students to access its internationally unique comprehensive analytical and experimental facility and expertise to conduct research in Earth and planetary materials science and to develop new fields via approaches such as chemical analysis, dating, structural analysis, and high-temperature and high-pressure experiments. The Institute is also strengthening collaboration with domestic and international research institutes, and actively contributing to analyses of extraterrestrial samples and data from international sample return missions such as Hayabusa2 and OSIRIS-REx.

JOINT USAGE / EDUCATION CENTER

Ushimado Marine Institute

Ushimado Marine Institute has been selected as a “joint-use/collaboration center” in the field of experimental, integrative biology and as a leading center-of-excellence among the marine stations in Japan by the Ministry of Education, Sports, Culture, Science and Technology, since April 2011.

DESTINATIONS OF 2021 GRADUATES

Graduate Schools

As of May 1, 2022

Classification	Graduates	Advanced to Graduate Schools	Employees
■ Master's Course			
Graduate School of Education	46(32)	7(6)	25(14)
Graduate School of Humanities and Social Sciences	72(39)	15(7)	31(17)
Graduate School of Natural Science and Technology	327(48)	24(2)	288(44)
Graduate School of Health Sciences	26(17)	4(1)	22(16)
Graduate School of Environmental and Life Science	145(50)	10(3)	120(41)
Graduate School of Medicine, Dentistry and Pharmaceutical Sciences	55(22)	6(1)	43(17)
Graduate School of Interdisciplinary Science and Engineering in Health Systems	82(19)	4(1)	74(16)
Total	753(227)	70(21)	603(165)
■ Doctor's Course			
Graduate School of Humanities and Social Sciences	9(5)		4(2)
Graduate School of Natural Science and Technology	39(10)		25(7)
Graduate School of Health Sciences	11(9)		10(8)
Graduate School of Environmental and Life Science	41(15)		30(10)
Graduate School of Medicine, Dentistry and Pharmaceutical Sciences	151(46)		109(31)
Graduate School of Interdisciplinary Science and Engineering in Health Systems	11(5)		4(3)
Total	262(90)		182(61)
■ Professional Degree Course			
Graduate School of Education	43(19)		42(19)
School of Law	13(7)		
Total	56(26)		42(19)
Total	1,071(343)	70(21)	827(245)
■ Doctor's Course			
The Joint Graduate School (Ph.D.Program) in Science of School Education, Hyogo University of Teacher Education	5(2)		5(2)

Note 1: Brackets, "()", indicate female students.

Note 2: "Graduates" includes students who stayed in graduate school longer than the standard term of study and withdrew from the school with the required credits.

Note 3: "The Joint Graduate School in Science of School Education, Hyogo University of Teacher Education" means students of Okayama University.

Undergraduate Schools

As of May 1, 2022

Classification	Graduates	Advanced to Graduate Schools	Medical Residents	Employees
School of Letters	171(126)	21(14)		127(100)

	Single Researchers (short-term)	30		
International Student Shared House		For Single Students (mixed functions) *1 room for Japanese student and 3 rooms for international students	120	6-2 Tsushima-Kuwanokicho, Kita-ku, Okayama

Accommodation for International Students and Researchers

Okayama University has four accommodations for international students and researchers: Kuwanoki Dormitory for International Students, Fukui Dormitory for International Students, International House for International Students and Researchers, and International Student Shared House which is for international and Japanese students.

These accommodations are established for the purpose of providing a place of residence for international students and researchers engaged in study and research at the university, and also contributing to the promotion of international exchange.

International Student Shared House was newly established in March 2016 with the aim of providing international and Japanese

International Student Shared House

students with a place to live and fostering global human resources who acquire an international sense by being exposed to foreign languages, cultures and lifestyles through their daily life. It has a form in which four students live together as a unit while keeping private rooms for each person, and is designed so that residents can interact with each other naturally.

All of the accommodations are located in convenient locations close to the Tsushima area, which is the center of the university, and students and researchers living there spend a fulfilling study and research life in a comfortable living environment.

Junko Fukutake Terrace

Junko Fukutake Hall and Junko Fukutake Terrace

Okayama University wishes to enhance the civic life of Okayama city by deepening the links between the citizens and the university community. One part of this integration has been the establishment of informal meeting places for citizens and the university community designed by the world famous Japanese architects SANAA. There is one at the Shikata campus, the Junko Fukutake Hall, and the other, the Junko Fukutake Terrace, is located at Tsushima campus. The Junko Fukutake Hall is a series of wooden triangular roofs that allow natural light making a bright, flexible space where concerts, lectures, and public events are often held. The Junko Fukutake Terrace is also a construction based on steel frames but with curving glass walls and an undulating roof. It serves as a cafe and sometimes a display space.

Junko Fukutake Hall

RELATED ORGANIZATION

The Consortium of Six National Universities in Japan

To enhance education and academic research and to develop joint educational programs, a group of national universities (Chiba University, Niigata University, Kanazawa University, Okayama University, Nagasaki University and Kumamoto University) organized The Consortium of Six National Universities in Japan.

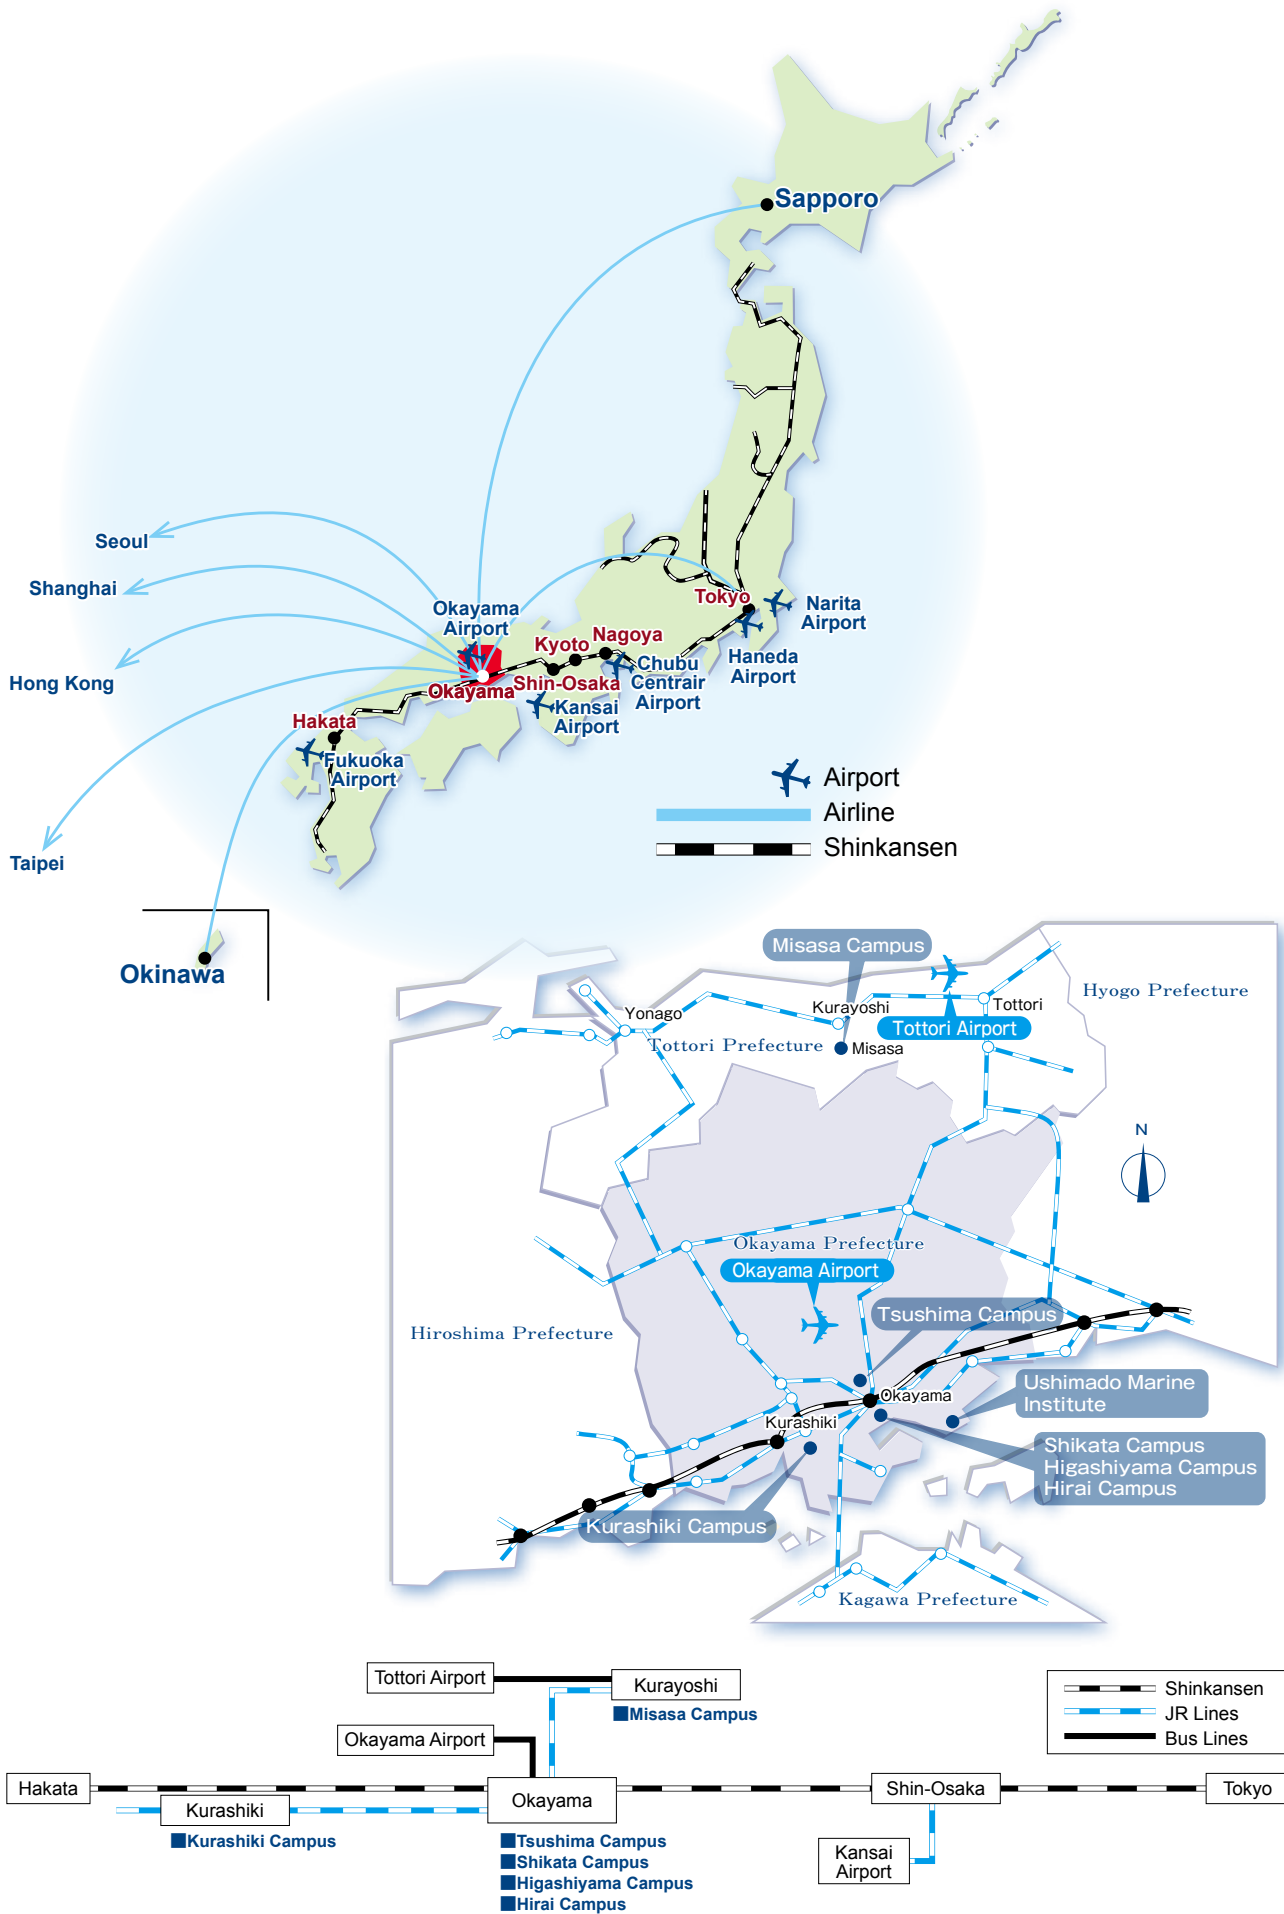

Okayama University Alumni

Okayama University Alumni, unlike the former alumni association centering on alumni only, was founded in October 2013, as network organization that supports the development of Okayama University as an “All Okadai” organization. Okayama University Alumni aims for the advancement of its members including everyone who has participated in the intellectual activities of Okayama University - not only alumni, but also currently enrolled students, current faculty staff, former faculty staff, international students, research students, and all other people who have been or are at present associated with Okayama University.
